Without apostolic ministry, the rest of the APEPT ministries have no practical reference point and therefore lack legitimacy. As such, the apostolic creates the primary field of NT ministry and is crucial to the recovery of missional church.

Without prophetic ministry the evangelistic can become shallow and God becomes an idol. The prophet ensures that the holiness of God is honored and truth is respected.

Without evangelistic ministry, there is no basis for pastoral ministry. No one to pastor!

Pastoral ministry exposes the disciple to the need for self-awareness and understanding.

Teaching based on the revealed will of God leads to maturity and understanding

### teaching

Pastoral ministry creates the environment for development of Christlikeness.

### pastoral

The evangelist brings people into relationship with Jesus through the gospel. In doing this it initiates the pastoral function.

### evangelistic

Prophetic ministry attends to what God has to say and calls the covenant people to faithfulness. As such, it opens the hearer up to God's call, which is the task of the evangelist.

### prophetic

Apostolic ministry creates the environment that gives birth to all the other ministries. This is so because it hosts the mDNA of Jesus's church. It thus forms the reference point for the other fivefold ministries. It "births" the prophetic because it establishes the covenant community. Together with the prophetic, it forms the "foundational ministry" of the church (Eph. 2:20).
